Supreme Student Council President /Member

MR. RONNIE I. MARANAN
Alumni Association President/Member

ATTY. AVELINO M. SUMAGUI
NGO Representative/Member

WHEREAS, the City College of Tagaytay (CCT), an HEI created and maintained by the city government of Tagaytay for the lower income and disadvantaged residents of Cavite, is committed to provide relevant and responsive academic programs in the arts, sciences, technology, business management and Hospitality and Tourism Management that will produce graduates who are equipped with knowledge and skills, possessing high ethical standards and prepared to compete in the global environment.

WHEREAS, CCT primarily aims to provide quality education that will assist students to attain personal integrity, competencies and skills required to collaboratively work and respond to the changing needs and conditions of the society in both local and national area for a "Matatag, maginhawa at panatag na buhay" as envisioned in President Duterte's Ambisyon 2040. However, the CCT is facing challenges that need for a better access to quality formal education to meet the institutional vision, mission and goals simultaneous to provision of outcome-based teaching and learning process and this may only be realized through the development of a strategy or approach to proactively and successfully deal with these emerging challenges.

WHEREAS, the City of Tagaytay is noted as one of the country's most popular destinations for domestic tourism because of its scenery and cooler climate provided by its altitude and overlooking Taal Lake in Batangas and provides views of Taal Volcano Island in the middle of the lake through various vantage points situated in the city. As such, a lot of restaurants and hotels have been built and maintained that continuously need employees with background in Hospitality and Tourism management. The high-level professions to meet the man-power need of the industry does not only happen locally but also in other foreign countries. In response to this issue, the CCT offers an undergraduate curricular program in BS in Hospitality Management and BS Tourism Management that aims to provide good quality education for the poor and disadvantaged individuals in the province of Cavite. This will cater the CHED's response to the fundamental weaknesses of the Philippine higher education concerning (a) deteriorating quality of higher education and (b) limited access to quality higher education by those who need it most and have potentials to maximize its benefits. However, the CCT does not have enough facilities/laboratory for the Hospitality and Tourism management courses. The CCT needs enough financial budget to be able to complete the standards of a model hostel for exposure and development of student skills in various to hotel setting.

WHEREAS, through the initiative of Tagaytay City Councilor Athena Bryana Tolentino, an Ordinance No. 340, series 2019, was approved converting the 2-story Philippine National Red Cross (PNRC) Building to CCT Hospitality and Tourism Management Hostel and Laboratory for CCT HRM students, Attachment C. The drawback however, was the constraints in budget allocation for the purchase of much needed facilities because the city government prioritized budget allocations for the preparation and control of COVID - 19 phenomenon. The planned activity to modernize and equip the building with suite room, bar, rest room and kitchen, to name a few, for the simulation and laboratory immersion of students in hotel setting, therefore, has been delayed. If this plan becomes feasible, the students will have the chance to develop their skills in hospitality management and operations, work place services and food service safety as their tool in seeking opportunity for employment and/or for business entrepreneurship thus "increase the productivity of the workplace and dynamism of communities," (CHED, 2012).

WHEREAS, upgrading quality education emphasizes the role of a strategic plan and the collective effort of various stakeholders in the pursuit of shaping the CCT-SHTM's direction by redefining its goals and priorities in the next 3-5 years.

NOW THEREFORE, upon the motion of Hon. Lorna S. Toledo, Chairperson, Committee for Education, Member - Board of Trustees, duly seconded by Ms. Pacita Rosario Z. Aquino, CCT College President / BOT Vice-Chairman, approved to upgrade the Bachelor of Science in Hotel Management (BSHM) curricular program and to modernize the School of Hospitality and Tourism Management facilities and equipment.
